

Properties of Matter

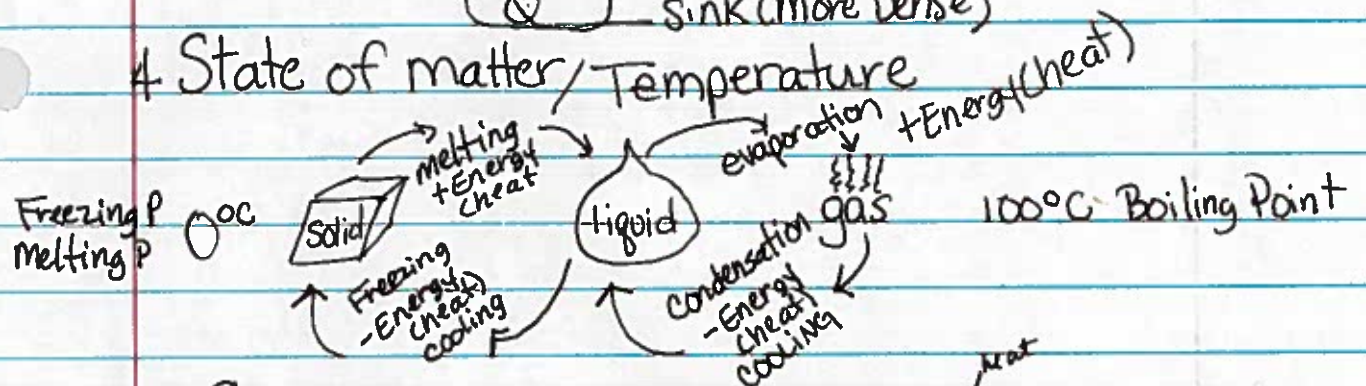

Thurs
Friday test

1.  **MASS** - How much stuff (matter) is
 (Balance) inside something

2.  **VOLUME** - Amount of space an object takes up.
↳ graduated cylinder (ml)

3. **Density**  Float (Less Dense)
sink (More Dense)

4. State of matter / Temperature

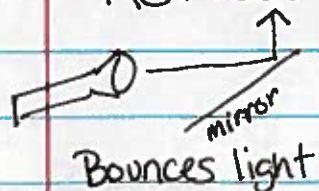

5. **Conductor**
yes - transfers heat + electricity

Insulator
no - stops heat + electricity

6. **Magnetic**
↳ is it attracted to a magnet?

7. **Reflect**

↳ **Refract**  - bends light
